

NEWS OF INDIANA and MICHIGAN

PLANS DISCLOSE
STYLE OF NEW GYM

Ideas Gained in Tour of Middle West Incorporated in State University Addition.

BLOOMINGTON, Ind., July 14.—After a trip through the middle west for the purpose of visiting the big gymnasiums in company with John W. Cravens, registrar of Indiana universities, architect Dr. J. M. Peckham, is in the city of Bloomington with a set of tentative plans for Indiana's new \$150,000 gym, the foundation of which is to be laid this fall. Architect Peckham has not completed the plans, but he has brought to Bloomington a rough sketch of them and held a meeting here last night with several members of the faculty and former athletes to get suggestions from them.

The building will be constructed of cubic stone and roofed with red tile as are the other university structures. It will be very plain on the outside and will have no tower or anything of that nature unless the plans are changed. The building is to have a basement and two upper floors. The basement will be used for a swimming pool, four bowling alleys, storage rooms and a ventilating plant. The ground floor includes an indoor athletic field, 150 x 200 feet and which is circled by a running track which will be about one-thirtieth of a mile. The ground floor will also contain a locker room, 50 x 130 feet, and a boxing and fencing room, 25 x 35 feet and also another room for wrestling of the same size. Two dressing rooms—one for Indiana and one for the visiting teams, also go on this floor, with a shower and necessary shower. There are to be two entrances to the ground floor, both alike, and two lobbies, 28 x 30 feet.

The gymnasium proper will be on the second floor in a room 30 x 180. There will be a billiard room, 30 x 35; a lounge room, 30 x 35; five small offices for the various officials; a stage 29 x 60; seating space for 3,000 people; property rooms and dressing rooms.

MONKEY KILLS EAGLE
Fight Enthusies When Bird Eats Baby Monkey in Zoo.

LAWRENCEBURG, Ind., July 14.—A large female monkey kept in the headed eagle said to be nearly 100 years old, during a short but fierce fight in an animal show on the midway at the fair ground near here. The monkey's offspring, a tiny three weeks old, clung to its mother and into the cage that confined the eagle. With a scream the bird attacked the baby monkey, killing it and eating most of its body before the mother monkey broke from the confines of its monkey box and attempted to squeeze between the iron bars of the eagle's cage. During the fight that followed the eagle got its head between the bars and the monkey grasped the old bird by the neck and nearly severed its head with her teeth, cutting the jugular vein. The eagle died before the keepers, who were aroused by the screams of the animal and the bird, could separate them. The monkey was so seriously torn by the bill and claws of the eagle that the veterinary who was summoned to dress its wounds said it may die.

OUR POOR SPRIGGINS
New Car Acts Funny and Tips Over Huge Water Tank.

BUCHANAN, Mich., July 14.—Hiram Spriggins, the local undertaker, who yesterday received a new automobile, had an unfortunate experience when after cranking it up for the first time, he in some manner lost control of the machinery controlling the steering apparatus and the auto after chugging up Front st. hill, suddenly swerved to the right, dashing headlong into the underpinning of the new 400-gallon water tank, which supplies the water for this village, allowing the tank to tip over and the contents to submerge the luckless driver and the machine for the time being. People living near the tank being rescued just as he was going down for the third time. It is expected that the water supply can be resumed without the course of the next few days. Mr. Spriggins has the sympathy of the entire community.

MAKE CERTAIN OF GUN

FORT HURON, Mich., July 14.—After purchasing a revolver, Robert Molan, a prosperous farmer of Wales township, stopped at Hector's, a neighbor, and asked him to fire the weapon. West did as requested. Molan then went to his home and made a similar request of his wife, who fired two shots in the air. Molan placed the barrel of the revolver in his mouth and pulled the trigger while his neighbor and wife stood aghast. Death was instantaneous.

DOCTOR, 94 YEARS OLD,
GOES TO EXPOSITION

BATTLE CREEK, Mich., July 14.—Ninety-four years old, but still active, Dr. J. M. Peebles of Battle Creek is en route for San Francisco to see the exposition. Furthermore he is traveling alone and without even a cat, although he has 15 of them in his "den," collected during his five journeys around the world. He attributes his longevity to abstinence from meat, fish, liquors and cigar smoking.

MOTORIST IS KILLED

ROYAL OAK, Mich., July 14.—Walter Wilkins, Detroit, was instantly killed and three others hurt when an automobile ran into a telephone pole one mile south of here and turned over. The injured, who were taken to a Detroit hospital, are: Mr. and Mrs. Charles Baker and Mrs. Helen Cone, all of Detroit. The chauffeur, W. J. Knuffelt, was the only one who escaped severe injuries.

OH! WHAT'S THE USE

PRINCETON, Ind., July 14.—The uptown district of this city is holding its nose and fighting flies.

A clean up campaign was completed here recently. Streets, alleys, front and rear yards were "polished to a frazzle" and when with a "well done good and faithful" air the citizens sat down to breathe in the fresh ozone and dream of a flyless community. About that time a government inspector came to town. He looked at the grass in the large yard surrounding the federal postoffice here occupying a quarter of a block just off the public square and opposite the city hall. He decided the soil was not right and that the yard should have blue grass. A contract was awarded to remove six inches of the old surface and replace it with new soil and high heaven made last week. The soil change was made last week, and now 100 big wagon loads of fertilizer have been placed on top to enrich the earth. The fertilizer is six inches deep, though this will be reduced to two inches by the time it has been kept wet down for 30 days, as required by the contract.

Meantime, the whole business district in that part of town smells of high heaven while millions of flies swarm to and from the center of attraction. All the citizens can do, under the circumstances, is to hold their noses. Housewives are kept busy "swatting" the pestiferous flies.

FORESTRY EXHIBIT
PLANNED FOR FAIR

Attractive Showing Will be Made by State Department at Capital This Fall.

Special to The News-Times. INDIANAPOLIS, July 14.—The forestry department of Indiana is preparing to make an unusually attractive exhibit at the state fair of 1915. The new building to take care of this exhibit is a neat bungalow 36 by 24 feet. The interior will be finished in different Indiana woods to show some of the splendid effects that can be accomplished.

Then, of course, there will be the special exhibit in finished and rough woods and demonstrating what can be done in the handling of the various woods for manufacturing as well as building purposes. It may surprise some people to know that there are between 2,000,000 and 3,000,000 acres of what is known as forest land in Indiana, and that there are very few varieties of hard woods that are not found in these. Neither are the woods pastures included in the estimate of forest acreage. These forests are still included in the resources of Indiana and are an important consideration in connection with manufacturing promotions in the state.

REFUSES NEW TRIAL

Saginaw Judge Also Threatens Lawyer With Contempt Charge.

SAGINAW, Mich., July 14.—Judge Gage, in the circuit court today denied the application for a new trial for Charles Kimbrough, the negro convicted of the slaying of eight-year-old Rosie Laundry last January and now serving a life sentence in Marquette. The court held the affidavits of alleged new evidence submitted with the application was of no value, and said that one of them was absolutely false. Judge Gage also said that some of the acts of Robert Curry, who was attorney for Kimbrough during the trial, were contempt of court, but that as Curry was a young attorney and he wanted to give him every chance possible he did not punish him. Curry will take his application for a new trial to the supreme court.

SON IS OVERPOWERED

Parent Holds Boy For Marshal After Alleged Attack.

ANDERSON, Ind., July 14.—Floyd Anderson, 24 years old, was arrested by the home of his parents near Lapel and was taken to the Hamilton county jail to await the outcome of injuries to his father, Fletcher Anderson. It is alleged that Floyd attacked his father on Sunday when the latter refused to give the young man money. Fletcher Anderson was resting in bed when it is alleged his son hit him. The elder Anderson leaped from the bed and grabbed his son. They struggled on the floor until the young man was overpowered by his father and held until the town marshal arrived from Lapel. In the Madison circuit court last week Floyd was acquitted of a charge of battery after a trial of five days. He was accused of being involved in a theft of \$50 at Lapel. Immediately after his acquittal young Anderson, who laid his arrest to drink made a profession of reform, saying he would never again cause trouble.

SAVES WRECKED CREW

Choctaw Goes Down Before Men Can Launch Life Boats.

PORT HURON, Mich., July 14.—Capt. Charles Fox and crew of the steamer Choctaw, which was cut in two in a collision with the steamer Wahcondah, Lake Huron are safe in port at Sarnia, Ont., opposite here. They were rescued by the Wahcondah. The Choctaw sank immediately after the collision with the Wahcondah. The latter's bow was punctured and she received a large hole in her side, it is said, but water-tight compartments kept her afloat. The Choctaw sank so quickly some of the crew could not reach lifeboats and were compelled to jump overboard.

BUYS CITY HALL SITE

WASHINGTON, Ind., July 14.—The city council passed an ordinance authorizing the purchase of the Dixon-Campbell lots at Van Trees and E. Third sts., as a site for a new city building. The lots were bought for \$5,750. Work will not begin on the new building until next year.

CHOKES TO DEATH FROM
THROAT AFFECTION

Use Pulmotor in Vain to Save Goldsmith Bushnell's Life. Suffered Erysipelas.

ELKHART, Ind., July 14.—Goldsmith Bushnell, about 22 years old, is dead of strangulation caused by erysipelas of the throat, face and head, at his rooming place with Mr. and Mrs. F. J. Palmer of 1017 S. Second st. Mr. Bushnell was to have been married next week to Miss Fernie Minegar, 19, whose parents are dead and who has made her home for 14 years with Mr. and Mrs. Henry Myers, friends of her parents, and who live north of the city. Mr. Myers said that Mr. Bushnell became ill while at his home calling on Miss Minegar two inches by the time it has been kept wet down for 30 days, as required by the contract.

The use of a pulmotor, which was resorted to last night, failed to restore Mr. Bushnell's respiration. In fact, it is believed life was extinct before the pulmotor was applied, although it was hurried to the Palmer home in the police patrol as quickly as possible. Officers Nihart and Corner, who took the pulmotor to the patient, were using the apparatus, but were told by the doctor that life was extinct and effort useless.

Mr. Palmer was with Mr. Bushnell when he observed that the patient was strangling. He summoned the officers to bring the pulmotor from the city building, where it had been placed by the Indiana & Michigan Electric Co., and called the physician. Mr. Palmer says Mr. Bushnell was unable to speak after the choking began and apparently died very soon afterward. Up to the time of the sudden attack he seemed to be resting comfortably.

H. E. Bucklen, millionaire, incidentally a dynamo of energy, is not averse to expending some of his surplus energy when it can be utilized to aid others.

He was in a corner store when a can of cream tumbled from a farmer's automobile as the vehicle rounded the corner. Several young men who witnessed the mishap remained dormant. Mr. Bucklen ran into the street, righted the emptying can, peered into it and then smilingly reassured the returning owner that he had at least saved a portion of the cream.

William Patterson, colored, who on June 28 slashed Herschel Guyer with a knife in a fight in the lobby of the Depot hotel, where both were employed, was given a \$15 fine and a jail sentence of 60 days, which Acting City Judge Sawyer suspended at the recommendation of Prosecutor Oscar Jay.

"They say they are Christians and they wouldn't sell me anything on Sunday, so I just took it." This was the only explanation Thomas Scull, a badly intoxicated hobo, could give of why he took a watermelon from in front of Tom Keeth's restaurant at 410 S. Main st., yesterday. He was arrested by Officer Wise. When told that yesterday was not Sunday, Scull merely looked perplexed.

GIRL CHARGED WITH
MURDER ARRAIGNED

Public Sympathy at Noblesville, Ind., is Strong For Miss Burk.

NOBLESVILLE, Ind., July 14.—With pleas of not guilty entered and preliminary hearings waived, Miss Irene Burk and Frank Taylor, the youthful lovers charged with the murder of the girl's mother, Mrs. Archie McClain, today were held in jail to await the action of the grand jury which convenes tomorrow. If indictments are speedily returned Judge Vestal announced that there will be little delay in bringing the case to trial.

In consequence of numerous stories gaining circulation to support the young girl's statement of long-continued abuse on the part of the mother, public sympathy apparently is strong for Miss Burk, whose signed confession absolves her lover from all blame in the killing. Taylor also has made an affidavit covering his movements prior to and at the time Mrs. McClain was killed, which practically evicts an alibi for him.

DREAMS CAME TRUE

KOKOMO, Ind., July 14.—As a direct result of continued dreams of a C. A. Young, an old man living in Rich Valley, northeast of this city, the countryside is now under the explosion of dynamite and the hills are being burrowed into by workmen employed by the new \$50,000 corporation, the Wabash Mining syndicate. Mr. Young came from Grand Rapids and his dreams led him to the vicinity of Rich Valley, and so direct did they point to a certain piece of land that he made a careful examination and discovered what he considered was gold. Samples were assayed by experts who reports were so excellent that the corporation was at once formed.

MEN ARE TOO COWARDLY

TERRE HAUTE, Ind., July 14.—Accusing her audience of being a "bunch of cowards," "Jones, the mine workers' angel," addressing union men gathered to protest against the life sentence imposed upon John R. Lawson, the Colorado labor leader, declared that if the men were too cowardly to stop the sending of working men to prison the women will have to do it.

Mrs. Jones characterized the judiciary of the United States as an insult to civilization and used other fiery language to express her contempt for "corporation controlled prosecution."

NEW AUTO PLANT

FLINT, Mich., July 14.—Ground was broken Tuesday for a motor manufacturing plant here that will employ, when completed in September, a force of 1,000 skilled mechanics. The factory will build motors for Chevrolet cars. The company announced Tuesday that it has acquired 20 acres of residence property surrounding its factories here to provide for further expansion.

COMES HOME TO VISIT
AND FINDS FATHER DEAD

Harry Scherrer Learns of Fatal Accident at Columbus After He Arrives From Washington.

COLUMBUS, Ind., July 14.—Harry Scherrer of Washington, D. C., arrived here yesterday to visit his parents, Mr. and Mrs. Charles Scherrer, two miles west of this city. He telephoned to their country home to tell his father to drive in after him, but got no response. Then he telephoned to a neighbor to tell his father that he was here. The neighbor stammered a little and finally said he would drive in. Scherrer suspected something was wrong. He made inquiry, and learned his father had been run down by a Pennsylvania switch engine and killed. Scherrer was reading a newspaper while driving across the railroad track, and as was also the horse he was driving. In spite of the fact that he was dragged 400 feet, his spectacles were not broken and his watch did not stop running.

GIRL TO BECOME A NUN

Miss Dorothy Heupel of Laporte to Enter St. Mary's.

LAPORTE, Ind., July 14.—Considerable of a social stir in this city's younger set was occasioned Tuesday by the announcement that Miss Dorothy Heupel, who graduated with the honors of her class this year, would enter St. Mary's next week to prepare herself for the habit of a sister.

Miss Heupel has been quite prominent socially and the announcement came as a distinct surprise. Miss Heupel's father is a Protestant and a prominent druggist, while the young woman's mother is a devout Catholic.

TREE STOPS TRAINS

Windstorm Blows Obstruction Across Moving Freight.

GREENFIELD, Ind., July 14.—During a windstorm between this city and Cumberland, a tree fell across a moving freight. Several trains were delayed while the tree was being removed.

Forest Souder, while on his way from this city to his home in a farm wagon, was caught in a windstorm which lifted him and the wagon bed off the wagon and set it down in a field. Souder's collar bone was broken.

BRIEFS.

ROCHESTER, Ind.—August Traster, 26 years old, committed suicide in the railroad station at Disko by drinking carbolic acid. His wife committed suicide in the same manner two months ago. Traster drank the poison in the presence of the station agent and a woman.

HARTFORD CITY, Ind.—Saloon keepers are preparing for a "dry" spell which starts Aug. 2 when 15 saloons will go out of business. Many of the saloon men will sell soft drinks.

HAMMOND, Ind.—In the same place where his brother, John Cause, was killed a year ago by being struck by a motorcycle, Eddie Cause, six years old, was seriously injured when he was struck by a motorcycle. The accident occurred in front of the boy's home.

ANDERSON, Ind.—Because they refused to allow by a new ordinance which provides that vehicles shall not be parked around the court house square, 10 owners of drays were arrested. All the men gave bond.

PORT WAYNE, Ind.—Committees are arranging for the annual reunion of survivors of the Thirtieth Indiana regiment of volunteers which will be held at Charubusco, Whitley county on Sept. 2.

CONNERSVILLE, Ind.—All the Christian churches of Fayette county will be represented at a picnic at Robert's park Aug. 1. The picnic of these churches is planned months ahead and have many of the features of old time camp meetings.

MUNCIE, Ind.—Charles Bateman, a veteran railroad man, was seriously injured in the shops of the Central Indiana Railroad Co. when a driving belt pulled apart while the machinery was in operation. The belt struck Bateman and hurled him to the floor.

GOSHEN, Ind.—Officers here are seeking Walter Bonafacius who when last heard from by his wife, Doshia Bonafacius of Naperville, Ill., at St.eger, Ill., Mrs. Bonafacius alleges that her husband deserted her and their two children at Cincinnati and sent them to Somerset, Ky., after giving them \$1.

PLINT, Mich.—Mrs. Nicholas Brehaut fainted while carrying her four-months-old son and her 16-months-old son downstairs at her home. The younger child's leg was broken.

ST. JOSEPH, Mich.—Crafield Scharf, 33 years old, an orchard helper, was killed by a Pere Marquette passenger train. His home is in Pottsville, Pa.

SAGINAW, Mich.—Pickpockets relieved Samuel Pocket of his pocket-book on a street car here, containing \$150. He was preparing to move to Detroit.

EATON RAPIDS, Mich.—Many Michigan Sunday school workers have arrived at the state holiness camp ground here for the summer school of disciples conducted by the Michigan State Sunday School association July 15 to 21.

ANN ARBOR, Mich.—Carl Smith, for many years financial secretary of the University of M. C. A., has resigned. Ill health was the cause.

BATTLE CREEK, Mich.—Mayor Marsh, City Clerk Thorne, City Attorney Cavanaugh and Commissioner MacGregor are working on a proposed ordinance to provide high bonds for jitney owners as a result of a demand by the M. U. T. Co.

Monroe, Mich.—Boyes Damsard and William P. Cooke were elected trustees at the annual school election. The proposition to establish a county normal was carried. A bond issue for \$10,000 for an addition to the high school was defeated.
